MATERIAL SAFETY DATA SHEET

The following information includes safety data required by OSHA. The recipient of this safety data is responsible for passing the safety information on so that it reaches the ultimate user who may come in contact with the material.

TRADE NAME: 987 LTC CATALYST

**CHEMICAL NAME
& FAMILY:** Alumina base catalyst with Heavy Metals

SYNONYMS: Alumina base catalyst with Heavy Metals

**CHEMICAL NOTATION
OR STRUCTURE:** Al_2O_3 + Heavy Metals
(Proprietary Mixture)

INGREDIENTS: Alumina impregnated with Heavy Metals.
Proprietary Mixture. Includes Nickel
compounds.

CAS REGISTRY NO: Al_2O_3 -1344-28-1

RTECS NO: Al_2O_3 : BK 1200000

The information contained herein is based upon data considered true and accurate. However Seawolf Inc. makes no warranties, express or implied as to the accuracy or adequacy of the information contained herein or the results to be obtained from the use thereof. This information is offered solely for the user's consideration, investigation and verification. Since the use and conditions of the use of this information and the material described herein are not within the control of Seawolf Inc. Seawolf Inc. assumes no responsibility for the injury to the user or third persons. The material described herein is sold only pursuant to Seawolf Inc.'s Terms and Conditions of Sale, including those limiting warranties and remedies contained therein. It is the responsibility of the user to determine whether any use of this data and information is in accordance with applicable federal, state or local laws and regulations.

PRECAUTIONS IN USE:

Because of the presence of a suspected carcinogen, avoid inhalation, ingestion or skin contact with the catalyst in either the product form or an altered form resulting from its use (dust, leachate, or waste) To avoid inhalation, use a properly fitted NIOSH-approved respirator fitted with a filter for highly toxic particulates. Ventilate the work area to keep dust levels below the PEL's shown on p. 3. Avoid skin contact by using rubber gloves, head coverings, goggles, and impervious clothing that is changed once a day. To prevent ingestion, do not allow eating, drinking or smoking in the work area. Hands and face must be washed before eating, drinking or smoking. Employees should shower after working with this material. SEE SPECIAL INFORMATION, p 4.

FIRST AID:

EYES: Immediately wash from eyes with large amounts of water, occasionally lifting upper and lower eye lids. If irritation occurs and persists, seek medical attention.

SKIN: Wash with soap and water. Remove contaminated clothing.

INGESTION: Drink 2 glasses of milk or water and induce vomiting by having patient touch the back of his throat with his finger. Never make an unconscious person vomit. Get medical attention immediately.

INHALATION: Remove to fresh air.

TOXICOLOGY

This product and its components are not listed on the IARC, NTP, or OSHA Carcinogens Lists:

ANIMAL TOXICOLOGY**TESTS FOR DOT HAZARD CLASSIFICATION:**

Not tested. Not classified as hazardous. Hazardous shipping label not required.

TESTS FOR FDA APPROVAL FOR USE IN FOODS:

Not a food-grade product. Must not be used in food or food contact.

HUMAN TOXICOLOGY

Alumina is not known to cause any occupational disease. A mild desiccation of the skin may result from frequent contact. Nickel compounds are listed on the NTP and IARC lists as suspected carcinogens which have been known to cause cancer in laboratory animal tests. Seawolf Inc. knows of no medical conditions abnormally aggravated by the exposure to this product. The primary route of entry is inhalation.

ENVIRONMENTAL DATA

Waste streams that contain this product must be treated to meet standards for toxic discharges

TYPICAL CHEMICAL & PHYSICAL INFORMATION

APPEARANCE: Bluish Green Beads

pH IN 5% SLURRY: Approximately 5-9

ODOR: None

SPECIFIC GRAVITY: Approximately ~ 2.4

BULK DENSITY: 25-30 lbs per cubic foot

SOLUBILITY IN WATER: Base-Insoluble. Heavy metals will leach.

APPROXIMATE ANALYSIS:	Wt. %	OSHA PEL mg/M	ACGIH mg/M
STC Ni (as NiCl)	0.15-0.19	1	1 (proposed =.05 eff. 1991)
Al ₂ O ₃	30-40	n.l.	n.l

n.l. - Not listed
STC-SARA Toxic Chemical

STABILITY: Stable

REACTIVITY: Non-reactive

FIRE & EXPLOSION DATA: Will not burn or explode

REGULATORY STATUS

- OSHA- See Approximate Analysis, p.3.
- NIOSH- Catalyst not evaluated.
- EPA- Contains chemical(s) listed on the SARA 313 Toxic Chemical List. Toxic Chemical(s) shown in Approximate Analysis: p.3. and by attachment is MSDS describes different product grades.
- ACGIH- See Approximate Analysis, p.3.
- USDA- Not applicable. Not a food grade product.
- FDA- Not applicable. Not a food grade product.
- DOT- Not classified.

HANDLING INFORMATION

STORAGE AND

TRANSPORTATION:

Keep containers tightly sealed and dry.

DISPOSAL:

Dispose in a secure type landfill, suitable for toxic chemicals, according to state, local and federal regulations.

SEE SPECIAL INFORMATION

SPILLAGE AND CLEANUP:

Vacuum up. Return to container for re-use or disposal. Use protective measures specified in PRECAUTIONS IN USE Section page 2.

CONTAINERS:

Steel drums, fiber drums or bins depending on the customers requirements.

SPECIAL INFORMATION

Following contact with chemicals or gases, the catalyst must be handled with special precautions. The combination of catalyst and retained material can be flammable and acutely toxic. Extra protection should be used besides that described in PRECAUTIONS IN USE. Avoid sources of ignition. Use NIOSH-approved organic vapor gas mask. Determine RCRA Hazardous Waste classification before disposal.
